

MATRIX STYLE

the antivandal door station

la forza dello stile

 **ROCOM**

MATRIX STYLE

Modern and elegant, **Matrix Style** is the modular range for solid and antivandal door station, today renewed in finishes and materials. The series is composed by stainless steel front plates and push buttons, conceived to be resistant to breaking, water spout and solid penetration. These technical specifications are granted by IP45 for solid items introduction protection and IK09 degree for mechanical shocks. Today **Matrix Style** is enriched with up-to-date colours and finishes, evoking lightness in its renowned sturdy structure. Front frames are now available even in matt titanium grey colour, while the plates are mirror-polished, that combine elegance and long-standing life. All the modules are backlit thanks to green LED's for easy identification especially in poorly illuminated situations. The modularity allows installations of great number of users and configurations in vertical or horizontal way. The range is complete with aluminium front frames and built-in or surface mounting boxes. In a single module can be integrated push button, door speaker and camera, so that **Matrix Style** can be

VIDEO INTERCOM COMPOSITION

the ideal solution starting from one-way installations up to the most complex cases. **Matrix Style** is available for digital Duo System, FN4000 and DF6000 systems or for analogue technologies with reduced or conventional wiring.

Matrix Style is the strength of antivandal with the best Italian style.

CCD CAMERA MODULE

with adjustable autoiris 6 LED 's lens, with door speaker integrated.

MAS43CED

Dim: mm 115 x 115

Colour camera and audio module with 1 call button. Autoiris 3.6 mm lens. For 4+1 reduced wiring systems and for DF6000 Digital Systems.

MODULES WITH DOOR SPEAKER INTEGRATED

MAS10P

Dim: mm 115 x 115

Audio module without call button for intercom systems with conventional wiring technology with electronic or alternate current call and for FN4000 Digital System.

MAS11P

Dim: mm 115 x 115

Audio module with 1 call button for intercom systems with conventional wiring technology with electronic or alternate current call and for FN4000 Digital System.

MAS12P

Dim: mm 115 x 115

Audio module with 2 call buttons for intercom systems with conventional wiring technology with electronic or alternate current call and for FN4000 Digital System.

MAS11PED

Dim: mm 115 x 115

Audio module with door speaker and 1 call button for 1+1 intercom systems electronic call and for DF6000 Digital System.

ADDITIONAL BUTTON MODULES

MAS22

Dim: mm 115 x 115

Module with 2 call buttons for audio systems with electronic or alternate current call and for FN4000 Digital System.

MAS24

Dim: mm 115 x 115

Module with 4 call buttons for audio systems with electronic or alternate current call and for FN4000 Digital System.

OTHER MODULES

MAS20

Dim: mm 115 x 115

Blank module.

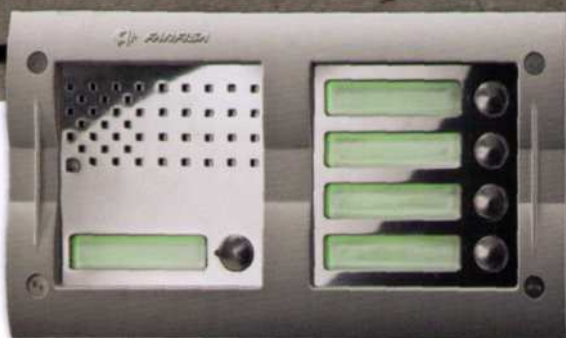

241DMA

4 diode module to be inserted in button modules MAS22 e MAS24 for 1+1 INTERCOM AND 4+1 video intercom system.

VIDEOINTERCOM COMPOSITION WITH DIGITAL CALL BUTTONS

INTERCOM COMPOSITION

DIGITAL DOOR STATION DUO SYSTEM

TD2100MAS

Dim: mm 115 x 115

Digital door station, with stainless steel front plate and 14 buttons. Equipped with 16-digit display on 2 lines. It allows the call from the user by dialling the corresponding number and electric lock release by entering the private code. The electronic index is also integrated, which gives the possibility to scroll the names in alphabetical order and select the desired one. It contains up to 250 name users.

CONVENTIONAL DOOR STATIONS DUO SYSTEM
